Hope all of you are done till week 5 or will get it done soon. It would have given you good theoretical, experimental and implementation exposure - enough insights to proceed.

1. Stock Price Time Series Forecasting using Deep CNN (analyticsvidhya.com)
2. Read the main paper for this project thoroughly: CNNpred: CNN-based stock market prediction using a diverse set of variables - ScienceDirect
3. Assignment: Prepare a 2 Page Summary of the above paper. Don't do this for the sake of it but to ensure that you have understood their workflow and can explain.
